

Medication lubricant

Gloup® is a slippery gel that makes whole or crushed tablets **EASIER TO SWALLOW**

How do I use Gloup® ?

First use of Gloup®

When using Gloup® for the first time, it is recommended to give a spoonful of Gloup® without a tablet

How to use Gloup® with whole tablets

1. Place tablets on a spoon

2. Add approximately 5 mL of Gloup® ensuring tablets are well covered

3. Take medication

How to use Gloup® with crushed medications

1. Pour a layer of Gloup® into a medicine cup

2. Pour the crushed medication over Gloup®

3. Cover with another layer of Gloup®

4. Scoop with a spoon and take medication

Tip: to reduce the bitter taste of medication, scoop, rather than stir

Why should you use Gloup® ?

- Slippery gel that makes tablets easier to swallow and **may negate the need to crush**
- **No known drug interactions**
- Designed to break down immediately once in the stomach, therefore having minimal or **no impact on absorption**
